Basic or Translational Scientists in Cancer Research Beth Israel Deaconess Medical Center, Boston

The Cancer Center in conjunction with the Department of Medicine, Pathology and Radiation Oncology at Beth Israel Deaconess Medical Center (BIDMC) announces an opportunity for the recruitment of 3 basic or translational scientists with expertise in cancer research. The successful candidates will have potential areas of research interest which may include: genetic and epigenetic regulation of cancer, interrogating mechanisms of therapeutic resistance, cancer immunology and immunotherapy, cancer biology, radiation oncology, or development of novel/targeted therapies. Growing the basic science and translational research program in cancer biology and immunology has been identified as a strategic priority for the BIDMC Cancer Center.

The candidates will be responsible for developing a research program as outlined above. The leadership of the Cancer Center and Cancer Research Institute, and Department of Medicine, Pathology, and/or Radiation Oncology, will provide mentorship and support to the candidate to accomplish these goals. Assistant professor candidates will have a track record of publications in high impact journals, mentored grants, and will show strong potential for independent funding. Associate professor candidates will also have established independent funding.

Candidates for these position must meet criteria for appointment as Assistant or Associate Professor of Medicine at Harvard Medical School. The successful candidates must have demonstrated scholarly activities with achievements in basic or clinical research and possess potential for program development, and teaching and mentorship abilities.

Beth Israel Deaconess Medical Center, the tertiary care hospital of Beth Israel Lahey Health, is a member of the Dana-Farber Harvard Cancer Center, an NCI-designated comprehensive cancer center. Salary and benefits will be competitive with other institutions. Applicants should have a PhD, MD or MD/PhD degree. The candidates will be put forward for an Assistant or Associate Professor level appointment at Harvard Medical School.

Please send letters of interest, curriculum vitae and bibliography in one document by emailing Elana Grandberg at: egrandbe@bidmc.harvard.edu

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
