MASSACHUSETTS GENERAL HOSPITAL

Faculty Position
Clinical Nephrologist, Vasculitis and Glomerulonephritis Center
Department of Medicine
Massachusetts General Hospital

The Massachusetts General Hospital Department of Medicine is seeking a board-certified Nephrology physician to join the Nephrology Division's Vasculitis and Glomerulonephritis Center.

The applicant will be expected to have a prospective interest in the specialized care and management of patients with vasculitis and glomerulonephritis. In addition, the applicant should have broad skills in clinical nephrology, including but not limited to the renal care of hospitalized inpatients, hemodialysis and peritoneal dialysis, and ICU nephrology. An active interest in clinical investigation that synergizes with clinical activities is encouraged, but not mandatory.

The applicant is expected to be board certified in Nephrology and have completed an ACGME accredited fellowship in Nephrology. The candidate is expected to meet the highest standards of professionalism and collegiality.

Appointment as an Instructor, Assistant or Associate Professor at the Harvard Medical School will be commensurate with experience, training and achievements in addition to teaching activities. Suitable candidates will have an MD or an MD-PhD, and Board Certification in Internal Medicine.

Although prior, specific training in glomerular disease would be advantageous, less experienced candidates with exceptional promise will also be considered.

Interested candidates should send a personal statement with research interest, three potential references and Curriculum Vitae to Daniela Mancini at dmancini@mgh.harvard.edu

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
